EXPLANATORY NOTE:

It has come to the notice of the Government that in several cases, fires are kindled in forest area of tendu unit/group of units during the period January onwards with the expectation that as a result of fire, good flush of tendu leaves would come. Due to such fires almost entire forest area in tendu units or in the vicinity, burns every year and irreversible damage is caused to the natural re-generation, fallen seeds, nests and habitats of microfauna, wild life and the ground flora including the valuable biodiversity of the area. The various Acts and Regulations have cast responsibilities on the citizens, Gram Panchayats/ Gram Sabhas to protect forests from the damages caused due to such fires by taking preventive measures. In order to prevent fires due to tendu trade, the strict measures as stated above are considered essential and it is believed that due to such measures sustainable harvesting of tendu leaves, due to which huge economic benefits accrue to the local people and tendu leaves collectors during tendu season, would continue without causing any damage to the forest in the tendu units/group of units or in the vicinity.

(a) The Deputy Conservator of Forests shall prepare a list of all villages in his jurisdiction where the incidences of fire on the forest area of more than 1 hectare within the limits of forest villages boundaries during the period 1st January to the date of auction i.e. before tendu leaves are auctioned and sold to a particular licensee. If such incidences occur before tendu auction, then the tendu collection shall not be carried out in such villages, and such villages will not be entitled for tendu incentive wages also.

(b) Each Deputy Conservator of Forests/ Divisional Forest Officer / Assistant Conservator of Forests / Range Forest Officers/ Round Officer /Forest Guard shall hold a meeting in each of the village in their jurisdiction to inform and make aware, the villagers about the ill effects of forest fires and also about the fact that they would be deprived from tendu collection wages and tendu incentive wages if the fires occur in the tendu units and their areas.

Conservator of Forests/ Divisional Forest Officer concerned and on the condition that the Deputy Conservator of Forests / Divisional Forest Officer or the Range Forest Officer shall have full access and control over the stock by putting the departmental lock to the godowns or by any other device as may be ordered by the Deputy Conservator of Forests/ Divisional Forest Officer.

The list of talukas and villages from which tendu leaves collection is prohibited is shown separately in the Annexure-A attached to the Offer form.

In such event the Government may, if it so thinks fit, proceed to dispose of the Tendu leaves in the said unit/group of units in such manner as the Government may in its absolute discretion think fit at the sole risk and at the cost, charges and expenses of the Licensee and Licensee will be liable to pay to the Government the loss if any, sustained by the Government as a result thereof, but he shall not be entitled to any profit that may accrue to the Government as a result thereof.

10. The provisions of the said Act and the Rules made thereunder particularly regarding transport of Tendu leaves shall be applicable to the transport of Tendu leaves by the Licensee under this Agreement.

11. If in the course of carrying out this contract any injury is caused to any person whatsoever, whether fatal or otherwise or any damage is caused to the property belonging to any person whatsoever and a claim for such injury, loss of life or damage is made against the Government by any person whatsoever then the licensee shall pay the Government forthwith on demand in that behalf by the Government the amount which, the Government may pay or may be held liable to pay in respect of such claim including all cost, charges and expenses sustained or incurred by the Government and incidental to such claim.
